COMPANY

Promotional Graphics

BAC Promotional Graphics makes Signs, Decals, Banners, Magnets, and other promotional items. Founded in 1969, our work involves custom projects using unique materials, specialty coatings, precise cutting and scoring, and other techniques to solve the promotional challenges of our customers. We use traditional screen printing methods which provides a heavy film of ink for longer lasting durability. We also ink-jet print for high quality full color reproductions. Our inks are primarily cured using ultra-violet (UV) technology.

Available from BAC Promotional Graphics:

- Promotional Decals
- Point of Purchase Signs
- Safety Campaigns
- Fleet Markings
- Production Identification
- Prototype Manufacturing
- Banners
- Presentation & Sales Tools
- Magnetic Promotions
- Rigid Vinyl

- 33 Calendar & Frame Magnets, Magnets Vehicle Signs

General Information

- 34 Custom Quote Sheet
- 35 Laminating and Diecutting plus additional options
- 36 Quoting & Ordering Info, Proofs, Stock Colors & More

Notes:

Window Decals: Most items shown in this catalog include a semi-opaque surface upon which ink is printed. For decals the adhesive is applied to the back of these items for mounting. For clear materials - including **clear polyester, clear vinyl, low tack adhesive vinyl**, and **static vinyl** - it is important to specify the orientation of the image for display purposes. Please indicate the following on your order to insure proper printing with the adhesive on the desired side:

Outside Window Application: Copy to be printed on the face of the decal with the adhesive on the back.

Inside Window Application: Copy oriented with the adhesive on the face of the decal so that when mounted to the inside surface of a window the copy can be read from the outside.

In general, for decals applied to a window we recommend a background color to enhance readability.

Special Quotations: Our factory can fulfill requests for unusual materials to fit special applications. Please provide information regarding the **stock required, finished size, imprint** (ink colors, coverage, and special effects), **special finishing instructions** (split backs, round corners, film lamination, pre-masking, etc.), and the **quantity** desired. It is also helpful to know where the finished product will be placed into use, how it will be installed, any anticipated exposure to the elements (weather, solvents, abrasives, etc.), the client's expectation of decal life span, and any other special needs (e.g., applied to a rough surface). A sample of the desired item (if available) is also appreciated. We will return a custom quote to you within 24 to 72 hours, pending the results of our research on your behalf.

Application Instructions: Please contact the factory for desired information.

Pressure Sensitive Decals - Square Cut, 4-Color Inkjet

No. 120: Standard White Vinyl
No. 121: Standard Clear Vinyl

Durable outdoor, flexible vinyls with permanent adhesive.

No. 122: Removable White Vinyl

Durable outdoor, flexible vinyl with removable adhesive.

No. 120 & 121 pressure sensitive decals are great for situations that require a permanent application. Showcase full-color brands with distinctive ad copy. UV inks are used for long-lasting copy. No. 122 is a similar stock with a removable adhesive to allow the decal to be removed with 6 months to 1 year of application.

Pricing based on the square inch size of decal and the order quantity. For detailed pricing instructions see page 36. For custom shapes see page 5.

Need the image to last longer? Add a gloss clear coat for the price of an additional color or see page 35 to add a film laminate to protect the image.

Need a special shape? See pricing on page 5 for simple to moderate cuts. For complicated cuts please contact factory.

Standard Production Time: 5 working days from receipt of art or approved proof.

Pricing includes screen, set-up, and logo charges. No extra charges for bleeds.

For general information, including pricing instructions, over-lamination, custom finishing options, and color matches, see pages 35 & 36.

Pressure Sensitive Decals - Square Cut, Spot Colors

No. 100: Standard White Vinyl

No. 101: Standard Clear Vinyl

Durable outdoor, flexible vinyls with permanent adhesive.

No. 102: Removable White Vinyl

Durable outdoor, flexible vinyl with removable adhesive.

No. 200: Clear Polyester (Mylar)

A high-gloss crystal clear finish polyester film with permanent adhesive.

No. 100, 101 & 200 pressure sensitive decals are great for situations that require a permanent application. Examples include marking "property of" on tool boxes at construction sites, noting "serviced by" on home utility items, or noting "membership in" for a business or individual in a local chamber of commerce or service club. No. 102 is a similar stock with a removable adhesive to allow the decal to be removed with 6 months to 1 year of application.

Pricing based on the square inch size of decal, the quantity of copy colors, and the order quantity. For detailed pricing instructions and stock copy colors available, see page 36.

Custom Sized Window Decals

No. 1150: Low Tack Adhesive Vinyl One-Way Read Window Decals

(Mounted on the inside. Readable only from outside the window. For larger sizes or higher quantities contact factory.)

- A great point-of-purchase item for convenience stores, gas stations, and other retail outlets.
- An indoor use, clear, flexible vinyl with an ultra low peel removable adhesive.
- Adhesive applied to the face of the decal so the decal adheres to the inside surface of the window to be read from the outside.
- Price includes 1-color or 4-color process advertising copy plus the background color of your choice. For PMS matches add \$24.00 (G). Note: white recommended for 4-color decals.
- Permanent adhesive pressure sensitive material is also available. Please specify with your order.

Square-Cut Special Material Decals—Equipment Applications

No. 105: Premium Vinyl

- A high-gloss white vinyl with permanent adhesive and a 4- to 5-year outdoor life.
- Great for decorative striping, high traffic point of purchase decals, and flat surface truck markings.

No. 206: White Polyester (Mylar)

- A strong, high-gloss white finish polyester film with permanent adhesive.
- Great for permanent applications like product identification and warning labels where the decal must remain dimensionally stable.
- Resistant to heat and solvent.
- Required material for certain product labeling situations (consult UL and other standards associations).

No. 117: High Tack Adhesive White Vinyl

- A durable outdoor, flexible vinyl with a permanent rubber base adhesive.
- Great for irregular, stationary surfaces and other hard-to-adhere-to substrate applications.

No. 108: Durable Product Marking Decals (DPM)

- Flexible vinyl marking with high performance adhesive for rough or textured surfaces.
- Bonds well to low & high energy plastics, painted metal, polycarbonates and fiberglass.

Pricing based on the square inch size of decal, the quantity of copy colors, and the order quantity. For detailed pricing instructions and stock copy colors available, see page 36. For die cutting special shapes see page 35.

Scratch Resistant Decals & Equipment Faceplates

No. 305 Scratch Resistant Vinyl

- These labels are often used for control panels, switch identification, instructions, and warning information where the copy must remain for the life of the product. The surface of the decal is textured for added appeal.
- Great for permanent applications like product identification and warning labels where the decal must remain dimensionally stable. Construction allows for the imprint copy to be resistant to heat and solvent.
- Construction is a 10 mil scratch resistant vinyl with the copy printed second surface – between the vinyl top and the laminated adhesive. The copy is oriented to be read through the vinyl for maximum protection.
- Adhesive: 3M 468 MP premium transfer adhesive for long lasting decals.
- Pricing based on the square inch size of the decal, the quantity of copy colors, and the order quantity. For detailed pricing instructions and stock copy colors available, see page 36. For die cutting and additional finishing options see page 35. PMS Match: \$24.00 (G).
- First line pricing includes one copy color plus one printed background color. Please identify background color with your order.

- Contact the factory for pricing on larger sizes, larger quantities, intricate designs, or special finishing requests. The pricing below is for inside use decals. Contact the factory regarding outdoor applications.

Home Loan Specialist

Indoor & Outdoor Banners – Stock Sizes

- We offer flexible vinyl banners with multiple color printing and precise finishing options to achieve the look you need. Your custom copy is **digital inkjet** or **screen printed** with ink on your preferred substrate. For other sizes and larger quantities, please contact factory.

- The pricing shown includes two substrate options: 1) A **10-ounce white vinyl** stock for limited use banners and 2) A **13 ounce white flexible vinyl** stock for longer lasting banners. An 18 ounce heavy grade vinyl is also available. Contact factory for pricing.
- The pricing shown below includes color copy on a white background, placing production-ready art and screen charges. Pricing is for process color printing of inks on one side of the banner only. Bleed copy is available and half-tone screens can be included for image areas up to **60"** wide. Copy changes must be priced as separate orders. Pricing is quoted pending review of final art.

- For the items below all colors are screen built using 4 color process printing techniques.
- Finish work: pricing below includes hems and grommets. Please specify position with order.
- For special sizes, quantities, or additional customization please send the desired details using the specification sheet shown on page 34 for a quote.
- All prices shown below are for production using print ready art. To typeset copy using production ready logos add \$48.00 (G).

High Quality, Small Quantity Hemmed 4-Color Process Banners

Need High Quality, full-color hemmed banners in small quantities? Put our inkjet printer to work using any of 2 available stocks priced as follows:

Pricing is based on the square foot size of the banner, the order quantity, the material selected and related cost per square foot, and a uniform set-up fee.

1. Determine the square foot size of the banner and the quantity desired.
2. Multiply the quantity by the square foot size by the price per square foot indicated below.
3. Add the set-up cost of \$90.00 (A) per order design to determine the total price.

Order as few as one banner if you need to! The minimum quantity is one!

The suggested life of the 13 oz. product is under 2 years of use in either indoor or outdoor settings. For the 10 oz. product the banner should be used in one location for 90 days or less.

Orders are limited to a size not to exceed 48" (4 ft.) in width and/or 120" (10 ft.) in length.

For example – say you need 3 white vinyl banners sized 4 x 3 with full color copy on 10 oz vinyl with hems and grommets. The square foot size of the banner would be 3 feet x 4 feet or 12 square feet.

Your order price would be: 3 banners x 12 square feet x \$5.50 per square foot plus \$90.00 or \$288.00 (A) total, plus freight and tax.

Products on this page are inkjet printed using a 150-line screen resolution for higher quality graphics. A print ready digital file is required. Add \$10.00 (G) for a color PDF (electronic) proof. For copy changes, add \$30.00 (G) per change.

The following stocks are available:

No. 9100 10 oz. White Vinyl

- Price is \$5.50 (A) per square foot + \$90.00 (A) Set-up
- A durable indoor or outdoor use lightweight, flexible vinyl, finished with hems and grommets.
- For limited use, temporary communications. Specify number of grommets & placement with your order.

No. 9130 13 oz. White Vinyl

- Price is \$6.10 (A) per square foot + \$90.00 (A) Set-up
- A heavier weight, durable indoor or outdoor use vinyl.
- Finished with hems & grommets. Specify number of grommets & placement with your order.
- For longer life banners.

Production Time: 4 to 6 working days from receipt of art or approved proof.
Pricing includes screen, set-up, and logo charges. No extra charges for bleeds.
For general information, custom finishing options, and color matches, see pages 35 & 36.

Calendar Cards, Membership/Wallet Cards & Key Tags

No. 7435-V: Rigid Vinyl Calendar Cards (Vertical Layout)

- 2021 or 2022 Year-In-View® calendar cards. A great direct-mail promotional product. Please specify year with order.
- Overall size: 3³/₈" x 2¹/₈" x .010 white rigid vinyl (Wallet Size)
- Your copy is printed in two places: an abbreviated message above the calendar to be referenced each time the calendar is viewed, and on the backside with a larger imprint area for additional information. Please specify calendar side and back side copy with your order. Finished with a UV coating.
- Ad copy areas: Calendar Side: 1³/₄" x 5⁸/₈"
Back Side: 3³/₈" x 2¹/₈" (Bleed Available)
- Calendar prints one color, as shown. Calendar color to be the same as the specified imprint color. Imprint color priced to be the same on both sides. For a different copy color on the backside add an additional color charge.
- Standard copy colors: see catalog page 36. PMS Color Match: \$24.00 (G)
- For copy changes or co-op calendar programs contact the factory for a quote.

5A

Pricing Information: Custom Rigid Vinyl Signs

The first line pricing shown is for one color copy on the listed item and includes simple typesetting. Production-ready art is required for all logos, and extra costs for complicated art (line drawings, excessive copy, special stylized copy, halftones, etc.) will be invoiced. Pricing for each additional color must be added, and process color images require a custom quote.

No. 715W: White Rigid Vinyl & No. 715C: Clear Rigid Vinyl

A heavy duty, clear or gloss white plastic (.015" thick) for high quality signs, special charts, instruction cards, etc. Good where durability is essential. Can be film laminated for added protection against abrasion and corrosives (see page 35). Also available in thicknesses of .010", .020" or .030". Contact factory for pricing.

6ABC

Note: Price includes copy printed one side only. For 2nd side copy add one additional color charge for each color to be printed. Also, write-on surfaces or UV coating can be priced as an additional color.

#715W

Pricing based on the square inch size of card, the quantity of copy colors, and the order quantity. For detailed pricing instructions and stock copy colors available see page 36. For die cutting information see page 35.

Production Time: 4 to 6 working days from receipt of art or approved proof.
 Pricing includes screen, set-up, and logo charges. No extra charges for bleeds.
 For general information, custom finishing options, and color matches, see pages 35 & 36.

Add-A-Magnet

Custom In Store Signage can be enhanced with a magnet.

■ We offer .030 styrene and .050 paper board signs with multiple color printing and precise finishing options to achieve the look you need. Your 1 & 2 color custom copy is **screen printed** with ink on the product. 4 color artwork can be **inkjet printed**.

- The first line pricing includes one color copy on a white background, scanning camera-ready art, typesetting simple copy, bleed copy, screens and set-up charges. Pricing is for spot color printing of solid inks on one side of the sign only.
- Half-tone screens (and process color) can be included. Copy changes must be priced as separate orders. Pricing is quoted pending review of final art.
- Stock colors available: See page 36. PMS Match: \$24.00 (G).

- Finish work: pricing below includes square corners. Rounded corners & holes drilled are available for a nominal upcharge. Please affirm desired finishing options with order.
- Styrene is recommended for indoor use and short-term outdoor use. 50pt paper board should only be used indoors.
- **Finished with 2 magnetic strips mounted to the back.** Requests for special orientation can be accepted.

Magnetics – Full Color, Custom Size

Custom Magnets: No. 455 White Semi-Gloss Magnetic with Full Color Imprint

- A .020" thick magnet, with a .004" white gloss vinyl laminate for special size and shape magnets. Total thickness is .024" for a medium weight magnet.
- Each printed with high resolution digital UV-inkjet printing technology. Prices include bleed copy as shown.
- Note: Minimum as low as 50 pieces.
- Option: Diecut to special shape.

Price each: 0.24" Thick Custom Magnets, Full Color

* See page 35 for die cost.

The pricing shown includes simple typesetting. Production-ready art is required for all logos, and extra costs for complicated art (line drawings, excessive copy, special stylized copy, halftones, etc.) must be quoted.

Pricing based on the square inch size of magnet and the order quantity. See page 36 for detailed pricing instructions and page 35 for die cutting information. For 0.19" or .034" thick magnets contact factory for pricing.

Special Notes on Magnetic Products

- Please note the variety of magnetic product shapes, sizes and thickness options available in this catalog. Custom sizes and shapes are available to help make your message stand out.
- Magnetics are heavy. Expedited shipping costs can be significant.
- When items are screen printed, half-tone line screens for black & white photographs will be coarse (65 to 85 line). Offset or digital printed solutions are available where noted and by special quotation. Inkjet printed magnets have a higher resolution (up to 150 line screen).

Production Time: 3 to 5 working days from receipt of art or approved proof.
Pricing includes screen, set-up, and logo charges. No extra charges for bleeds.
 For general information, custom finishing options, and color matches, see pages 35 & 36.

5ABC

special ordering instructions:

- Custom-shaped magnets are as simple as creating a die outline indicating the desired shape and ordering a custom die.
- To price a custom-shaped magnet, draw a rectangle around the entire item and multiply the length of the rectangle by its depth to determine the square inch size.
- For magnets up to 7 square inches in size, the price is the same as items 4019, 4024, or 4034 for the quantity and thickness desired plus a \$75.00 (G) die charge (one time). Simple to moderate designs only. Full color prices apply to full color magnets.
- For magnets larger than 7 square inches use the pricing grid for item 455 on page 29 or item 415 on page 32. For .024" thick magnets add 5% to the prices shown. For .034" thick magnets add 10% to the prices shown. Die charges are available on page 35.

Production Time: 4 to 6 working days from receipt of art or approved proof.
Pricing includes screen, set-up, and logo charges. No extra charges for bleeds.
 For general information, custom finishing options, and color matches, see pages 35 & 36.

See page 36 for detailed pricing instructions and stock copy colors. For die cutting information, see page 35. For .024" thick magnets add 5% to the prices shown. For .034" thick magnets add 10% to the prices shown.

PMS Color Match: \$24.00 (G).

6ABC

Pricing is based on the square inch size of the magnet, the number of copy colors, and the order quantity. The first line pricing shown is for one color copy on the listed item and includes simple typesetting. Production-ready art is required for all logos, and extra costs for complicated art (line drawings, excessive copy, special stylized copy, halftones, etc.) must be quoted. For process color images see page 29.

Special Options:

Write-On Surface: Add a write-on surface to your magnet. Price is the same as an additional color.

Write-on/Wipe off Dry Erase Surface: Add a \$40.00 (G) Set-up plus \$0.18 (G) run charge, each magnet. Note: Dry erase marker not included. Contact the factory for a source as needed.

No. 4185: Magnetic Schedule

- Size: 4" x 5⁷/₈" x .019" thick.
- Schedule typeset from information provided: \$36.00 (G)
- White vinyl background on magnetic stock. Imprint color: 1 Color.
- Standard copy colors: See catalog page 36. PMS color match: \$24.00 (G).
- Logo Set-up Charge: Included

Custom Sign & Banner Products

Special Quotations: Our team can fulfill requests for unusual materials to fit special applications. Please provide information regarding the **stock required, finished size, imprint** (ink colors, coverage, and special effects), **special finishing instructions** (hem & grommet, pole pockets, etc.), and the **quantity** desired. It is also helpful to know where the finished product will be placed into use, how it will be installed, any anticipated exposure to the elements (weather, solvents, abrasives, etc.), the client's expectation of life span, and any other special needs (e.g., additional hardware needed). A sample of the desired item (if available) is also appreciated. We will return a custom quote to you within 4 to 36 hours, pending the results of our research on your behalf.

Custom Vinyl, Polyethylene, and Canvas Banners or Custom Signs

- Please complete the specifications below requesting the desired material, size, quantity, ink colors, banner color, finishing instructions, a description of the intended use, and the expected useful life.
- Be sure to include a rough sketch and the placement of any art. A sketch helps to minimize production costs.
- Process color is available in most sizes. Be sure to include the size of four color process elements.
- Overall banner/sign sizes can range from 1 ft x 1 ft to 24 ft x 5 ft.
- Minimum order quantity: 1

Fax or mail a rough sketch of your banner or sign for a quote:

Pricing includes screen charges.

For general information, custom finishing options, and color matches, see pages 35 & 36.

Custom Finishing Options

Film lamination for decals, magnetics, rigid vinyl cards & styrene signs

- Clear polyester overlamination—1 mil thick.
- Protects decals and other substrates from abrasion and corrosives.
- Add for longer lasting image protection.
- Add these prices to unit price of decal.

Premasking for pressure sensitive decals

- A temporary cover applied to the decal to assist in the installation process. Removed prior to general use.
- Helps to pick-up and position vinyl graphics.
- Protects decal from scuff marks when using a squeegee applicator.
- Add these prices to unit price of decal.

Price each: Laminating or Premasking

Lamination for larger sizes quoted on request. For sealed edge lamination, please contact factory.
Special coatings, including UV lamination, are also available. Please contact the factory.

6ABC

Additional Finishing Options

General

Pressure sensitive decals may be **back or face slit** free of charge. Please specify on the purchase order. Slitting is not recommended for clear vinyl and polyester products. The factory also has **custom scoring, kiss cutting, and perforating** capabilities. Please contact the factory for information.

All items are provided with square corners unless otherwise requested. **Rounded corners** are available on most decals, rigid stocks and magnets for a nominal upcharge.

Special Shapes

In most cases, special shape may be added to decals, posters, rigid stocks, styrene, and magnetics for the additional price of a steel rule cutting die. Circles in one inch increments up to 18" are stock dies and may be requested at no additional charge. Many special shapes including some ovals are also available on file. Please contact the factory for details. For shapes not on file, the following price list may be used to price dies for simple to moderately intricate designs:

Decal Size:	Up to 25 square inches:	\$110.00 (G)
	From 25 to 125 square inches:	\$135.00 (G)
	From 125 to 250 square inches:	\$175.00 (G)
	Over 250 square inches:	Requires Special Quote

Note: Die charges for special shapes apply to the first order only. Repeat orders for the same size and shape will not incur a die charge.

See page 5 for decals cut to a special shape using our custom vinyl cutter.

Consecutive Numbering

Available on certain items. Please contact the factory for details.

Special Coatings

UV Coating or Write-On Surface: Add a UV coating or a write-on surface to your item. Price is the same as an additional color.
Write-on/Wipe Off Dry Erase Surface: Available as a coating or a laminate. Contact factory for pricing

Shrink Wrap Packing

Your order may be shrink-wrapped in packages of a specified quantity. Determine the number of shrink-wrapped packages by dividing the quantity ordered by the desired number per package. Add \$0.40 (G) per package or \$10.00 (G) minimum to your order.

Pricing includes screen charges.

For general information, custom finishing options, and color matches, see above & page 36.

General Information

Pricing Information: Custom Decals, Rigid Vinyl/Signs & Magnets

Computing Square Inches: To price a custom sized product determine the square inch size of the item by multiplying the length in inches by the depth in inches. For irregular shapes draw a rectangle around the entire item and use the dimensions of the rectangle for the length and depth. Locate the appropriate pricing row for the determined square inch size and the desired material and follow the line across the page to the desired quantity. Pricing for each additional color must be added, and process color images may require a custom quote.

Decimal Equivalents of Fractions

$\frac{1}{8}$ inch = .125 $\frac{1}{4}$ inch = .250 $\frac{3}{8}$ inch = .375 $\frac{1}{2}$ inch = .5 $\frac{5}{8}$ inch = .625 $\frac{3}{4}$ inch = .75 $\frac{7}{8}$ inch = .875

All pricing is quoted in US Dollars, F.O.B. Factory (Iowa). For quantities in between those listed use the next lower quantity price shown. Basic order information consists of quantity, item number and description, size, ink colors, finishing instructions, ship date, complete shipping address, and shipping instructions. Submit all orders, new or repeat, with complete instructions, including printed or type written imprint with color break arranged to serve as a layout for composition. Production-ready high-resolution digital art should be supplied for all logos, custom typefaces, line drawings, etc. The factory will determine whether the art is considered production-ready. Customers will be advised of additional charges required due to poorly submitted art.

We can accept your **artwork in electronic formats** using flashdrives, email, or our FTP server. Consult with the home office art department for current requirements, uploading capabilities, useable file formats, available software, etc. We are continuously updating our capabilities – please contact the factory for further information.

Orders for catalog items will be produced and shipped within a **normal production schedule** of 4 to 7 working days unless otherwise noted. Production time starts when the order and approved art are received at the factory and acknowledged. If a **specific production deadline** must be met it must be pre-approved by the factory. For orders that **cancel** prior to shipment expenses will be accumulated at the time of cancellation and will be invoiced in full. In accordance with accepted printing trade customs we reserve the right to ship an **over-run or under-run** of up to 4% on orders greater than 20 pieces. For **exact quantity add \$35.00 (G)** to your order. Your order will be invoiced accordingly. Unless specifically requested we will select the freight carrier with the best service/rate combination for your order.

Photocopy (laser) proofs or PDF electronic proofs are available for \$10.00 (G). Please specify required proofs with your order. **Product proofs** for items up to 100 square inches in size are available based on complete art provided and a screen/set-up charge of \$60.00 (G) per color. Product proof charges are non-transferable and must be custom quoted for larger items.

Copy changes – except as noted on special items - must be sold as separate orders unless pre-approved by the factory. **Changes in copy colors** are available for \$24.00 (G) per change. The color break must remain the same. **Special color matches** (PMS Colors) are available for \$24.00 (G). Perfect PMS matches are not guaranteed due to the limitations of screen-printing and inkjet inks. **Split shipments** must be pre-approved by the factory and additional costs may be incurred. Unless otherwise noted the **minimum order quantity** required is the first column listed.

Our primary printing methods include digital inkjet and silkscreen (where heavy layers of ink are applied to a substrate through a screen mesh carrying the image to be printed). For long-term durability and color intensity please specify silkscreen process. **Process color images can be screen-printed.** Please note the coarse resolution (65 to 85 lines) will apply to process color screen-printed images.

Standard Ink Colors: The following inks may be requested without incurring any special PMS charges:

Pantone Yellow 012		PMS 116 Yellow		PMS 130 Gold	
Pantone Orange 021		PMS 185 Red		PMS 208 Maroon	
Pantone Purple		Pantone Violet		Pantone Process Blue	
PMS 300 Peacock Blue		Pantone Reflex Blue		PMS 320 Teal	
PMS 348 Kelly Green		PMS 341 Hunter Green		Black	
PMS 873 Metallic Gold		PMS 877 Metallic Silver		White	

Pricing includes screen charges.

For general information, custom finishing options, and color matches, see page 35 & above.
